Exhibit 3.2 Gantt Chart.

In this view of the implementation process, tasks are displayed vertically across a horizontal timeline. D-Day represents the travel contract phase-in date for each site. On this date, the Defense Travel System software is installed and functioning properly, supporting infrastructure and data files are in place, and the new commercial travel services provider is onboard.

		D	D	D	D	D	D	D	D-	D	D	D	D	D	D	D	D	D	D	D-	D	D
TASK	ACTION	190	180	-170	-165	-150	-140	-120	100	-90	-70	-60	-50	-45	-40	-30	-15	-10	-5	Day	+1	+ 30/60/90
Establish POCs at site	Site POC, PMO																					
Make initial contact telephonically with primary site POC. Fax or otherwise forward questionnaires, checklists, and information packets to the site POC.	РМО																					
Site training POC meet with Service/Agency training POC	Site Training POC, Service/Agenc y Training POC																					
Ensure that plans are underway to provide local help desk support to the site, including a means of providing the phone number to users	PMO, Site POC																					
Coordinate implementation of the system with local unions	Site, PMO																					
Establish procedures or otherwise address situations where Service DTA, Org DTA, or AO is outside the implementing region/area	Services, Agencies, PMO																					
Establish the certificate authority, registration authority, and local registration authority procedures, processes and a management hierarchy in accordance with DISA's DoD PKI End User Guide	Services, Agencies, DISA, Site POC																					
Select database source of user data (finance, personnel) (<i>Note</i> : Data for site will be provided by DMDC and DFAS based upon information provided by PMO.)	DMDC, DFAS, Site POC																					
Establish contact with training site POC	PMO																					
Confirm training schedule dates with training POC	PMO																					
Forward Appendix B of the training checklist to training site POC	PMO, Site Training POC																					
Establish contact with information technology POC	PMO, TRW																					
Identify Local Registration Authority	Site DTA, Communicatio																					

-		D	D	D	D	D	D	D	D-	D	D	D	D	D	D	D	D	D	D	D-	D	D
		-	-	-170	-165	-150	-140	-120	100	-90	-70	-60	-50	-45	-40	-30	-15	-10	-5	Day	+1	+
TASK	ACTION	190	180																			30/60/90
	n/IT POC,																					
A	DISA																					
Assess computing capability and identify connectivity issues using	Site POC, PMO																					
the Connectivity Questionnaire	FIVIO																					,
Ensure training coordinator has	PMO																					
met with Service/Agency training	1 IVIO																					
POC																						
Identify DTA personnel, AOs,	Site POC,																					
Certifying Officials, and QAEs to	PMO																					
the PMO by phone or by fax																						
Confirm establishment of	Services,																					
certificate authority, registration	Agencies,																					
authority, and local registration authority hierarchy relevant to the	DISA, Site POC																					
site	FOC																					
Appoint personnel serving in	Site DTA,																					
Defense Travel Administration and	PMO																					
Local Registration Authority roles																						
in writing																						
Appoint accountable officials in	Site DTA,																					
writing	PMO																					
Return completed copy of	Site Training																					
Appendix B of the training checklist	POC, PMO																					
Establish site hierarchy (budget module, routing scheme) on site	Site DTA, PMO																					
Establish contact with site PAO	PMO																					
Advise contracting officer of	Contracting																					
current CTO that a letter of	Officer of																					
notification must be issued to	Current CTO,																					
current CTO about changeover to	Services,																					
new service provider at least 60-90	Agencies,																					
days beforehand	PMO																					
Schedule office space survey and	Site POC,																					
new CTO site visit for staff	TRW																					
locations Confirm CA, RA, and LRA are	Site DTA,																					
established	PMO																					
Verify that letter of notification of	Contracting																					
contract changeover was received	Officer of																					
by current CTO	Current CTO,																					
	PMO																					
Mail outreach materials to site	PMO																					
outreach campaign coordinator																						
Ensure that connection from LRA	DISA																					
to PKI is functioning properly	DMDC																					
Upload personnel data files Coordinate dates for CTO travel	Site POC,																					
seminar for travelers	TRW, New																					
Community traverers	CTO, PMO																					
Complete office space survey and	TRW, New																					
CTO site visit	CTO, Site																					
	POC																					
Verify that site PAO received	PMO

		-	-	-170	-165	-150	-140	-120	100	-90	-70	-60	-50	-45	-40	-30	-15	-10	-5	Day	+1	+
TASK	ACTION	190	180																			30/60/90
outreach materials																						
Assess on-ground situation	PMO																					
Schedule TDY site visits as required	PMO																					
Begin PKI/digital signature training for LRAs and RAs	DISA																					
Install PKI equipment (card reader and dedicated printer) for LRA and confirm that the installed system does not produce any error messages	DISA																					
Begin on-site training for LRAs	DISA, PMO																					
Establish local help desk procedures Conduct DTA and "Train-the-	Site DTA, PMO PMO, TRW																					
Trainer" for identified trainers																						
Issue one-time passwords and unique user IDs that will enable DTAs, AOs, and frequent travelers to create digital certificate diskettes	Site LRA, PMO																					
Create digital certificate diskettes	Site DTA, PMO																					
Upload data files for passenger name records	СТО																					
Upload updates to personnel data files	DMDC																					
Establish procedure to issue one- time passwords and unique user IDs that will enable users to create digital certificate diskettes	Site LRA, DISA																					
Load budget module	Site DTA																					
Define, develop, distribute "organization codes"	Services, Agencies, Site DTA																					
Assign organization codes, access and permission levels to AO and travelers	Site DTA, PMO																					
Ensure that budget modules are loaded	Site DTA, PMO																					
Initiate outreach campaign on site	Site PAO, PMO																					
Begin installation of Defense Travel System software at primary sites	TRW, PMO, Site IT POC																					
Mail Defense Travel System CD- ROM to non-primary sites	TRW																					
Identify and schedule additional assistance/training as required	PMO																					
Confirm that the local help desk is operational and is expecting the workload that may be generated	PMO																					
Confirm that the local help desk phone number is or will be conveniently available to users	PMO

TASK	ACTION	- 190	180	-170	-165	-150	-140	-120	100	-90	-70	-60	-50	-45	-40	-30	-15	-10	-5	Day	+1	+ 30/60/90
Verify receipt of Defense Travel	PMO, Site	130	100																			30/00/30
System CD-ROM at non-primary sites	POC																					
Begin installation of Defense	Site POC,																					
Travel System software at non- primary sites	PMO																					
Begin on-site train-the-trainer classes	Site Training POC, PMO																					
Begin training forQAEs, Transportation Management Officer, and/or Transportation Officers	Site, PMO																					
Begin on-site training forAOs, DTAs and other accountable officers	Site Training POC, PMO																					
Create digital certificate diskettes	Site DTA, PMO																					
Continue outreach campaign and ensure that it is reaching lowest level	Site PAO, PMO																					
Conclude on-site training for DTAs	Site Training POC, PMO																					
Ensure that CUI to ECPN connection is functioning properly	TRW, PMO																					
Ensure that user connection to CU is working	TRW, PMO																					
Begin installation readiness review																						
via advance parties or phone using Readiness Checklist	PMO																					
Conduct CTO travel seminar for travelers	New CTO, TRW, Site POC																					
Brief Commander/Command Group on implementation status	PMO																					
Ensure that supporting travel management service provider has software token for non-connected travelers	DISA, PMO																					
Issue user certificate-diskettes	Site LRA, PMO																					
Conclude installation readiness review via advance parties or phone using Readiness Checklist	Site POC, PMO																					
Check status of transition process from current CTO to new CTO	Site TO, PMO																			1		
Verify that current CTO is ready for transition to new CTO	PMO, Current CTO, New CTO																					
Validate transition from current CTO to new CTO	Site DTA, PMO																					
Remove any physical or electronic constraints on the use of the system	Site IT POC																					
Notify travelers, DTAs, AOs, LRAs, Finance/Budget Officers, CTO,	Site POC
